Explanation how the benchmarks are run

<http://www.polepos.org/circuits.html>

Databases benchmarked in this run

db4o-8.0.174.15231

the open source object database for Java and .NET

<http://www.db4o.com>

SQLite-3.6.3

a small C library that implements a self-contained, embeddable, zero-configuration SQL database engine.

<http://www.sqlite.org>

JavaDB-10.5.3.0

Sun's supported distribution of Apache Derby

<http://developers.sun.com/javadb/>

HSQLDB-1.8.1

lightweight 100% Java SQL database engine

<http://hsqldb.sourceforge.net/>

Hibernate-3.6.5.Final

relational persistence for idiomatic Java

<http://www.hibernate.org>

mongoDB-2.0.6

open source, high-performance, schema-free, document-oriented database

<http://www.mongodb.org>

Complex

write, read, query, update and delete complex object graph

write

Complex

write, read, query, update and delete complex object graph

read

Complex

write, read, query, update and delete complex object graph

query

Complex

write, read, query, update and delete complex object graph

update

Complex

write, read, query, update and delete complex object graph

delete

NestedLists

write and read nested lists

create

NestedLists

write and read nested lists

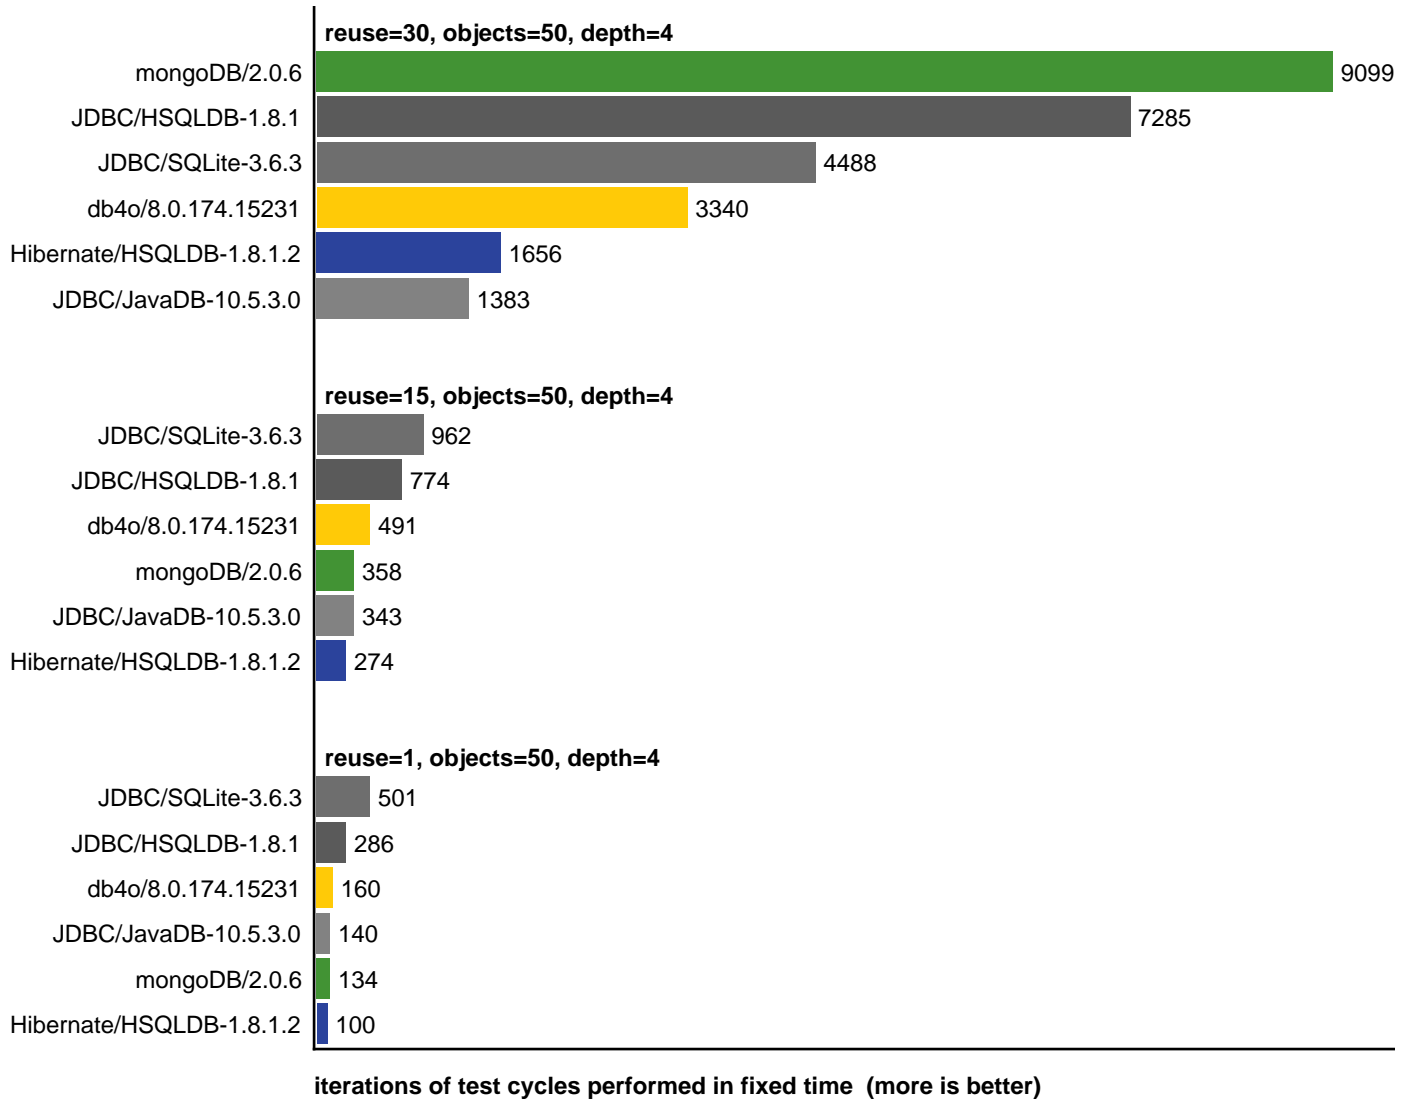

read

NestedLists

write and read nested lists

update

NestedLists

write and read nested lists

delete

InheritanceHierarchy

writes, reads, queries and deletes objects with a 5 level inheritance structure

write

InheritanceHierarchy

writes, reads, queries and deletes objects with a 5 level inheritance structure

read

InheritanceHierarchy

writes, reads, queries and deletes objects with a 5 level inheritance structure

query

InheritanceHierarchy

writes, reads, queries and deletes objects with a 5 level inheritance structure

delete

FlatObject

write, query, update and delete indexed flat objects

write

FlatObject

write, query, update and delete indexed flat objects

queryIndexedString

FlatObject

write, query, update and delete indexed flat objects

queryIndexedInt

FlatObject

write, query, update and delete indexed flat objects

update

FlatObject

write, query, update and delete indexed flat objects

delete
